

Summary

iQ3 Cloud Backup is a fully managed service, driven by our team of data protection engineers who will work with you to configure your data protection policies in order to meet your business requirements. You will receive access to a centralised management console, providing you will full visibility and access to your backups and restores.

Our backup services utilise industry leading deduplication technology, minimising your hardware footprint and simplifying visibility by allowing various workloads and platforms to be encapsulated within the one solution.

Benefits

- Fully managed solution
- Flexible data protection policies
- Unlimited backups
- Simple deployment
- Daily reporting & notifications
- Self-Service capability for restores and configurations

Inclusions

- Daily status reports
- Monthly trending reports
- 24/7/365 support
- Pro-active monitoring
- Enterprise-grade technology to facilitate the backup design as outlined and documented in the design phase

ABOUT IQ3

Who are we

iQ3 are an agile and dynamic Australian IT company delivering Infrastructure-as-a-Service (IaaS) via private, public and hybrid cloud solutions. With our head office in Sydney and regional offices across APAC, iQ3 provides solutions across a wide range of industry sectors including government, education and commercial organisations.

iQ3 continues to deliver value and relevance to our clients who appreciate their flexibility and experience in delivering highly effective and commercially viable solutions. This has gained iQ3 a strong reputation as leaders in the infrastructure and cloud solutions marketplace.
