

**Summary**

iQ3 Cloud Storage encompasses a number of enterprise class lab forms, delivering scalable; block, file, object and protection storage for all your business-critical workloads.

iQ3 block workloads are available for both cloud compute and same-DC clients, offering high IOPS and low latency tier 1 and tier 2 storage for your business workloads.

iQ3 file-based cloud storage is offered on a number of tiers with compelling benefits. Our tier-1 file-based cloud storage offers replication, high-performance, low latency, replication, snapshots and encryption arrest. While tier-2 is designed for high-volume unstructured data, scaling from terabytes to petabytes and offering non-destructive capacity upgrades, replication and snapshots.

iQ3's protection cloud storage offers a purpose-built, deduplicating storage platform with optimised protocols for a number of leading enterprise backup solutions as a target for production and long-term backups.

Our S3-compatible object storage includes encryption arrest and self-service at multiple protection levels for applications requiring object storage.

**Benefits**

- Workload mobility
- Business continuity
- Reduction in hardware
- Enterprise grade technology
- Various performance tiers
- Monthly billing in arears

**Inclusions**

- Storage delivered via multiple protocols (eg: CIFS, NFS, FC etc)
- Monthly reports
- 24/7/365 support
- Flexible billing models
- Product specialists

**ABOUT IQ3****Who are we**

iQ3 are an agile and dynamic Australian IT company delivering Infrastructure-as-a-Service (IaaS) via private, public and hybrid cloud solutions. With our head office in Sydney and regional offices across APAC, iQ3 provides solutions across a wide range of industry sectors including government, education and commercial organisations.

iQ3 continues to deliver value and relevance to our clients who appreciate their flexibility and experience in delivering highly effective and commercially viable solutions. This has gained iQ3 a strong reputation as leaders in the infrastructure and cloud solutions marketplace.

**Why iQ3**
